## COUNCIL MEMBERS' RESPONSIBILITY STATEMENT

*for the year ended 31 March 2013*

### *Council Members' responsibility statement for the consolidated financial statements*

The Association's Council Members are responsible for the preparation and fair presentation of the consolidated and separate financial statements of The Swaziland Sugar Association, comprising the statements of financial position at 31 March 2013, the statements of comprehensive income, changes in reserves and cash flows for the year then ended and the notes to the financial statements, which include a summary of significant accounting policies and other explanatory notes, in accordance with International Financial Reporting Standards and in the manner required by the Swaziland Sugar Act of 1967, as set out on pages 5 to 67.

The Council Members are also responsible for such internal control as the Council Members determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and for maintaining adequate accounting records and an effective system of risk management, as well as the preparation of the supplementary schedules included in these financial statements.

The Council Members have made an assessment of the Association and its subsidiaries' ability to continue as going concerns and have no reason to believe the business' will not be a going concerns in the year ahead.

The auditor is responsible for reporting on whether the consolidated and separate financial statements are fairly presented in accordance with the applicable financial reporting framework.

### *Approval of the financial statements*

The consolidated and separate financial statements as set out above were approved by the Council Members on 4 July 2013 and are signed on its behalf by:

---

J Hulley  
**President**

---

Dr M S Matsebula  
**Chief Executive Officer**

## **Independent Auditors' Report**

### **To the Members of The Swaziland Sugar Association**

We have audited the consolidated and separate financial statements of The Swaziland Sugar Association, which comprise the statements of financial position at 31 March 2013, and the statements of comprehensive income, changes in reserves and cash flows for the year then ended, and the notes to the financial statements which include a summary of significant accounting policies and other explanatory notes, and the Council Members' report, as set out on pages 5 to 67.

#### *Council's responsibility for the financial statements*

The Association's council members are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and in the manner required by the Swaziland Sugar Act of 1967, and for such internal control as the Council Members determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, these financial statements present fairly, in all material respects, the consolidated and separate financial position of The Swaziland Sugar Association at 31 March 2013, and its consolidated and separate financial performance and consolidated and separate cash flows for the year then ended in accordance with International Financial Reporting Standards, and in the manner required by the Swaziland Sugar Act of 1967.

# THE SWAZILAND SUGAR ASSOCIATION

## COUNCIL MEMBERS' REPORT

*for the year ended 31 March 2013*

Council has pleasure in submitting their report together with the consolidated and separate financial statements of the Association for the financial year ended 31 March 2013.

### *Business activities*

The Association, which is established by an Act of Parliament, is involved in the purchasing and selling of sugar and molasses in Swaziland. The function of the Association under the Act is to also regulate the sugar industry.

### *General review of business operations and results*

The state of affairs of the Association at 31 March 2013 and the results of its operations for the year then ended, are fully set out in these financial statements.

### *Results of operations*

The Group recorded revenue of E4.02 billion (2012: E3.14 billion). The increase in revenue is mainly attributable to favourable selling prices, the weakening of the Rand/Lilangeni against export currencies and increased sales volume. The cost of sales increased from E2.94 billion to E3.77 billion in line with increased sales volume. Profits that are made by the Association are distributed in full back to the millers and growers and form part of the cost of sales. Distribution costs incurred during the year were E62.19 million (2012: E68.62 million). The decrease is mainly as a result of favourable freight rates.

Net financing costs, including foreign gains and losses, increased from E147.29 million in 2012 to E162.38 million. This is primarily a result of the depreciation in the value of the Lilangeni against export currencies. Foreign exchange losses incurred were E82.32 million compared to E70.70 million in the previous year. Interest paid also increased from E62.65 million to E83.29 million as a result of increased sugar price payments and increased production when compared to the previous year.

Net cash flow hedges realised and transferred to the statement of comprehensive income relates to foreign exchange gains that were recognised in equity in the previous financial year. SSA's policy is to apply hedge accounting in respect of the hedged items outstanding at the year end and this gain or loss is released to profit or loss as the underlying sale transactions occur.

### *Consolidated statement of financial position*

The carrying value of property, plant and equipment decreased from E182.97 million to E176.96 million in line with the depreciation charge for the year.

During the previous year the quota holders of Sociedade Terminal de Açúcar De Maputo Lemitada ("STAM") decided that a portion of the investment be converted into a loan and be reimbursed to the shareholders. This portion of the investment is now being disclosed as a long term loan receivable. The current portion of this long term loan is E1.01 million.

Inventories increased from E372.91 million to E657.14 million as a result of increased stock quantities on hand at year end coupled with better net realisable values compared to the previous year. Trade receivables increased by E68.06 million when compared with the previous year as a result of higher sales that occurred at the end of the financial year. Trade payables decreased by E22.51 million as a result of a reduction in millers' retentions at year end.

At year end the Association was in a net current liability position. Subsequent to year end management have renegotiated the terms of repayment of the Public Services Pension Fund loan. The loan is now repayable on 31 July 2015, an extension of 24 months. The re-classification of the loan from current to non-current would have the effect of returning the Association to a net current asset position at the date of this report.

## COUNCIL MEMBERS' REPORT

for the year ended 31 March 2013 (continued)

### Events subsequent to year end

No events occurred after the reporting date that would require adjustment to or additional disclosure in these financial statements.

### Subsidiaries and joint venture company

The Association has the following subsidiary companies:

Swaziland Sugar Assets Limited	100%
Sugar Assets (Mhlume) Limited	100%
Sugar Holding Company Limited	100%
Commodity Marketing Company Limited	100%
Sugar Assets (Simunye) Limited	100%

The Association is involved in the following joint venture company:

Sociedade Terminal de Açucar De Maputo Lemitada	25%
---	-----

### Council

Council is the highest governing body of the Association. Council comprises an equal number of representatives from the Swaziland Millers Association and the Swaziland Cane Growers Association. The Chairperson is an independent non-executive member. Council members in office at the reporting date were as follows:

Mr R Hulley	President
Mr J Hulley	Vice President
Mr T Dlamini	Chairman
Mr N Jackson	
Mr E Ndzimandze	
Mr B James	
Mr E Nxumalo	Resigned: 30 September 2012

## COUNCIL MEMBERS' REPORT

*for the year ended 31 March 2013 (continued)*

### *Marketing Executive Committee*

The Marketing Executive Committee ("MEC") is a sub-committee of Council and is responsible for the marketing of sugar and molasses. The committee is chaired by an independent non-executive member. MEC members in office at the reporting date were as follows:

Mr T Dlamini	Chairman
Mr G White	
Mr E Nxumalo	
Mr E Ndzimandze	
Mr J Hulley	
Mr P Ginindza	
Mr A T Dlamini	
Mr M Mkhaliphi	
Mr G Scheepers	
Mr S Geldenhuys	
Mr N Jackson	
Mr S Cleasby	Resigned: 31 December 2012
Mr J M Sithebe	
Mr J Blumberg	
Mr M Maziya	
Mr S Potts	
Mr R Hulley	
Mr G Williams	Appointed: 31 December 2012

### *Finance Committee*

The Finance Committee is a sub-committee of Council and is responsible for overseeing the financial management of the Association. The committee is chaired by an executive member and its members at the reporting date were as follows:

Dr M Matsebula	Chairman
Mr S Potts	
Mr J Blumberg	
Mr P Ginindza	
Mr I Schei	
Mr A Ngcobo	
Mr J Gule	Resigned: 30 September 2012
Ms S M Magagula	Appointed: 30 September 2012

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013*

### **1. Reporting entity**

The Swaziland Sugar Association is an Association domiciled in Swaziland. The address of the Association's registered office is: Corner of Msakato & Dzeliwe Streets, P O Box 445, Mbabane H100, Swaziland. The consolidated and separate financial statements of the Association as at and for the year ended 31 March 2013 cover the activities of the Association and its subsidiaries (together referred to as the "Group") and the Group's interest in jointly controlled entities. The Group is primarily involved in purchasing and selling sugar and molasses in Swaziland. Amounts realised from the sale of sugar and molasses stocks are distributed to growers and millers.

### **2. Basis of preparation**

#### **a) Statement of compliance**

The consolidated and separate financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board (IASB), and the requirements of the Swaziland Sugar Act. The principal accounting policies are consistent with those of the previous year and have been applied consistently by the Group.

#### **b) Basis of measurement**

The consolidated and separate financial statements have been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value.

The methods used to measure fair value are discussed further below.

#### **c) Functional and presentation currency**

The consolidated and separate financial statements are presented in Emalangeni, which is the Association's functional currency. All financial information presented in Emalangeni has been rounded to the nearest one.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **d) Use of estimates and judgements**

The preparation of the consolidated and separate financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the consolidated and separate financial statements are described in the following notes:

- note 28 : provisions and contingencies
- notes 11, 14, 15, 17, 18, 25 : valuation of financial instruments
- note 20 : lease classification
- note 13 : valuation of sugar and molasses stocks
- note 10 : useful lives and residual values

### **d) Change in accounting policies**

There were no changes to accounting policies during the year under review.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated and separate financial statements, and have been applied consistently by Group entities.

#### 3.1 Basis of consolidation

##### *Subsidiaries*

Subsidiaries are those entities controlled by the Association. Control exists when the Association has power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Business combinations arising from transfers of interests in entities that are under the control of the shareholder that controls the Group are accounted for as if the acquisition had occurred at the beginning of the earliest comparative year presented or, if later, at the date that common control was established; for this purpose comparatives are restated.

The Group financial statements incorporate the assets, liabilities and results of the operations of the Association and the following subsidiaries:

	<b>2013</b> <i>Control</i>	<b>2012</b> <i>Control</i>
■ Swaziland Sugar Assets Limited	100%	100%
■ Sugar Assets (Mhlume) Limited	100%	100%
■ Sugar Holding Company Limited	100%	100%

##### *Joint ventures*

Joint ventures are those entities over whose activities the Group has joint control, established by a contractual agreement. The consolidated financial statements include the Group's share of total recognised gains and losses of the joint venture on an equity accounted basis, from the date that joint control commences until the date that joint control ceases. When the Group's share of losses exceeds its interest in the joint venture, the Group's carrying amount is reduced to nil and recognition of future losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. The following is the joint venture of the Association:

	<b>2013</b> <i>Share</i>	<b>2012</b> <i>Share</i>
Sociedade Terminal De Açúcar De Maputo Limatada ("STAM")	25%	25%

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **3. Significant accounting policies (continued)**

#### **3.1 Basis of consolidation (continued)**

##### *Transactions eliminated on consolidation*

Intra-group balances, and any unrealised gains and losses or income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with jointly controlled entities are eliminated to the extent of the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### **3.2 Foreign currency**

##### *Foreign currency transactions*

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Emalangeneni at the foreign exchange rate ruling at the reporting date. Foreign exchange differences arising on translation are recognised in the profit or loss. Non-monetary assets and liabilities that are measured in terms of historical costs in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities that are measured at fair value in foreign currencies are translated to Emalangeneni at foreign exchange rates ruling at the date the fair value was determined. These foreign currency exchange differences are also recognised in profit or loss.

#### **3.3 Financial instruments**

Financial assets include cash and cash equivalents, trade and other receivables, forward exchange contract assets, loans to subsidiaries and unsecured loans receivable.

Financial liabilities include bank overdrafts, long-term liabilities and trade and other payables. All financial liabilities are recognised initially at fair value, in the case of a financial liability at fair value through profit or loss, plus any directly attributable transaction costs.

Unless otherwise stated, the carrying values of these financial assets and financial liabilities approximate their fair value.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **3. Significant accounting policies (continued)**

#### **3.3 Financial instruments (continued)**

##### *i) Non-derivative financial assets*

A financial asset is recognised if the Group becomes party to the contractual provisions of the instrument. Financial assets are derecognised if the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset to another party without retaining control or substantially all risks and rewards of the asset.

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts and call loans that are payable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Subsequent to initial recognition non-derivative financial assets are measured as described below.

##### *Held- to-maturity*

If the Group has the positive intent and ability to hold debt security to maturity, then they are classified as held to maturity. Subsequent to initial recognition held to maturity investments are measured at amortised cost using the effective interest method, less impairment losses.

##### *Financial assets at fair value through profit or loss*

A financial asset is classified at fair value through profit or loss if it is classified as a held for trading or is designated as such upon initial recognition. Financial assets are recognised initially at fair value through profit or loss if the Group manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Group's documented risk management or investment strategy. Upon initial recognition attributable transaction costs are recognised in profit or loss as incurred. Financial assets at fair value through profit and loss are measured at fair value and changes therein are recognised in profit or loss.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.3 Financial instruments (continued)

##### *Loans and receivables*

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortised cost using the effective interest method less any impairment losses.

Loans and receivables comprise unsecured loans receivable, loans to subsidiaries, cash and cash equivalents and trade and other receivables.

##### ii) *Non-derivative financial liabilities*

The Group initially recognises a financial liability when it becomes party to the contractual provisions of the instrument.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Group has the following non-derivative financial liabilities: long term liabilities, bank overdrafts, and trade and other payables.

Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

##### iii) *Derivative financial instruments*

The Group holds derivative financial instruments to hedge its foreign currency risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through profit or loss.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **3. Significant accounting policies (continued)**

#### **3.3 Financial instruments (continued)**

##### **iii) Derivative financial instruments (continued)**

On initial designation of the derivative as the hedging instrument, the Group formally documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, together with the methods that will be used to assess the effectiveness of the hedging relationship. The Group makes an assessment both at the inception of the hedge relationship as well as on an ongoing basis, of whether the hedging instruments are expected to be “highly effective” in offsetting the changes in the fair value or cash flows of the respective hedged items attributable to the hedged risk, and whether the actual results of each hedge are within a range of 80 – 125 percent. For a cash flow hedge of a forecast transaction, the transaction should be highly probable to occur and should present an exposure to variations in cash flows that could ultimately affect reported profit or loss.

##### *Cash flow hedges*

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability of a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

When the hedged item is a non-financial asset, the amount recognised in equity is transferred to the carrying amount of the asset when it is recognised. In other cases the amount recognised in equity is transferred to profit or loss in the same period that the hedged item affects profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognised in equity remains there until the forecast transaction occurs.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.4 Impairment

##### i) *Non-derivative financial assets*

A financial asset not measured at fair value through profit or loss is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated cash flows of that asset, that can be estimated reliably. Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor will enter bankruptcy, adverse changes in the payment status of borrowers and economic conditions that correlate with defaults.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognised in profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. For financial assets measured at amortised cost, the reversal is recognised in profit or loss.

##### ii) *Non-financial assets*

The carrying amounts of the Group's non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or group of assets ("cash generating unit").

An impairment loss is recognised if the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **3. Significant accounting policies (continued)**

#### **3.5 Employee benefits**

##### *i) Defined contribution plans*

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

##### *ii) Termination benefits*

Termination benefits are recognised as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date. Termination benefits for voluntary redundancies are recognised if the Group has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

##### *iii) Short term benefits*

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short term cash bonus plans, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### **3. Significant accounting policies (continued)**

#### **3.6 Income tax**

The income tax expense comprises current tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities is a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, and differences relating to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### **3.7 Inventories**

Inventories of sugar and molasses on hand at the year end are valued at the amounts distributable to the growers and millers in accordance with the final estimate. The final estimate which represents the amounts to be paid by the Association to growers and millers is considered to be the lower of cost and net realisable value and, is determined as the estimated selling price in the ordinary course of business, less estimated volume rebates, discounts, and point of sale costs.

Management's determination of the final estimate is based on the most reliable evidence available at reporting date.

Other stocks are valued at the lower of cost and net realisable value, on a first in - first out basis.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.8 Investments

Investments are shown at cost less impairment losses in the Association's separate financial statements, and comprise investments in subsidiaries and jointly controlled entities.

#### 3.9 Leases

##### i) *Leased assets*

Leases of plant and equipment under which the Group assumes substantially all the risks and rewards incidental to ownership are classified as finance leases. Other leases are classified as operating leases.

Finance leases are recognised in the statement of financial position by recording an asset and liability equal to the lower of its fair value and the present value of minimum lease payments at the inception of the lease. Capitalised leased assets are depreciated in accordance with the depreciation policy noted below, with the depreciation period being the lower of the estimated useful life of the asset or the lease term where appropriate. Lease liabilities are reduced by repayments of principal, whilst the finance charge component of the lease payment is charged directly to profit or loss.

##### ii) *Lease payments*

Payments made under operating leases are recognised in the profit or loss on a straight line basis over the term of lease. Lease incentives received are recognised in the statement of comprehensive income as an integral part of the total lease payments made.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

#### 3.10 Finance income and expense

Finance income comprises interest income on funds invested and foreign currency gains on hedging instruments that are recognised in profit or loss. Interest income is recognised as it accrues, using the effective interest method.

Finance expenses comprise interest expense on borrowings, impairment losses recognised on financial assets, and losses on hedging instruments that are recognised in profit or loss. Borrowing costs are recognised in profit or loss using the effective interest method.

All interest and other costs other than those noted under the capitalisation of borrowing costs accounting policy below, incurred in connection with borrowings, are expensed as incurred as part of finance expense.

Foreign currency gains and losses are reported on a net basis.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.11 Revenue

*i) Sugar and molasses sales*

Revenue from the sale of sugar and molasses is recognised in the profit or loss when significant risks and rewards of ownership have been transferred to the buyer. Revenue is measured at the fair value of the consideration received or receivable, net of strategic rebates, export rebates and discounts. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or possible return of goods. No revenue is recognised if there is significant continuing management involvement with the goods.

*ii) Export sales*

Export sales proceeds are translated at the rate ruling when the risk and rewards have passed to the buyer. The difference between the actual rates of exchange at transaction date and the rate at which the Association has obtained advances in foreign currencies for those sales or, where applicable, the rates of exchange actually realised after taking account of forward exchange contracts, is recognised in the profit or loss as a foreign currency gain or loss.

#### 3.12 Property, plant and equipment

*i) Recognition and measurement*

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditures that are directly attributable to acquisition of the asset. The cost of self constructed assets includes the cost of materials, direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the cost of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised in profit or loss.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.12 Property, plant and equipment (continued)

##### ii) Depreciation

Freehold land is not depreciated. Improvements to leasehold property are capitalised and depreciated over the period of the lease. Depreciation is calculated on a reducing balance and on a straight line basis at the rate considered appropriate to reduce the carrying value of their useful lives. Depreciation methods, useful lives and residual values are reassessed at the reporting date and adjusted if appropriate.

The estimated useful lives for the current and comparative periods are as follows:

	<i>Years</i>
Buildings	25
Motor vehicles	5
Plant, machinery and equipment	10
Furniture and fittings	10
Computer equipment	3
<b>Sugar assets</b>	
<i>Bulk store</i>	
Bulk store building	40
Bulk store equipment	20 - 40
<i>Conditioning silo</i>	
Conditioning building	40
Conditioning equipment	10 - 40
<i>Molasses storage</i>	
Molasses tanks	40
Molasses equipment	10 - 35
Bagging plant equipment	20
Bulk loading equipment	20
Front end loader equipment	15
VHP reclaim equipment	20

##### iii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of replaced part is derecognised. The costs of day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 3. Significant accounting policies (continued)

#### 3.13 Borrowing costs

Borrowing costs incurred in respect of assets which require more than one year to construct (qualifying assets) are capitalised up to the date that the assets are brought into use, and to the extent that the borrowing costs have been incurred to finance operations, they are expensed as incurred.

#### 3.14 Provisions

A provision is recognised in the statement of financial position when the Group has a legal or constructive obligation as a result of a past event that can be reliably measured and it is probable that an outflow of economic benefit will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

### 4. New standards and interpretations not yet adopted

At the date of authorisation of the financial statements of The Swaziland Sugar Association for the year ended 31 March 2013, the following Standards and Interpretations were in issue but not yet effective:

#### Effective for the financial year commencing 1 April 2013

- IAS 1 amendment *Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income*
- IFRS 1 amendment *Government Loans*
- IFRS 7 amendment *Disclosures – Offsetting Financial Assets and Financial Liabilities*
- IFRS 10 *Consolidated Financial Statements*
- IFRS 11 *Joint Arrangements*
- IFRS 12 *Disclosure of Interests in Other Entities*
- IFRS 10, IFRS 11 and IFRS 12 amendment *Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance*
- IFRS 13 *Fair Value Measurement*
- IAS 19 (amendments) *Employee Benefits: Defined Benefit Plans*
- IAS 27 *Separate Financial Statements (2011)*
- IAS 28 *Investments in Associates and Joint Ventures (2011)*

#### Effective for the financial year commencing 1 April 2014

- IAS 32 *Offsetting Financial Assets and Financial Liabilities*
- IFRS 10, IFRS 12 and IAS 27 amendment *Investment entities*

#### Effective for the financial year commencing 1 April 2015

- IFRS 9 *Financial Instruments*

\* All Standards and Interpretations will be adopted at their effective date, except for those Standards and Interpretations that are not applicable to the entity.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### 4. New standards and interpretations not yet adopted (continued)

IFRS 1, IAS 12 amendment, IAS 19 amendment, IFRS 1 amendment for Government loans, and IFRIC 20 are not applicable to the business of the entity and will therefore have no impact on future financial statements.

The impact of the remaining statements on the financial statements has not yet been estimated.

### 5. Determination of fair values

A number of the Group's accounting policies and disclosures require determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair value is disclosed in the notes specific to that asset or liability.

#### *Forward exchange contracts*

The fair value of forward exchange contracts is based on their listed market price if available. If a listed market price is not available, then fair value is estimated by discounting the difference between the contractual forward price and the current forward price for the residual maturity of the contract using a risk-free interest rate (based on government bonds).

Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and counterparty when appropriate.

#### *Non-derivative financial liabilities*

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

#### *Trade and other receivables*

The fair value of trade and other receivables is estimated at the present value of future cash flows, discounted at the market rate of interest at the reporting date. The fair value is determined for disclosure purposes.

The land at Phuzumoya siding is let by the Trustees for the Swazi Nation to Swaziland Railway and sublet by Swaziland Railway to the Association. Both the lease and sublease expire on 31 December 2013. Swaziland Railway has entered into agreements with the Association to operate sidings at Phuzumoya and Mlawula. The agreements are for indefinite periods but may be terminated at six months' notice by either party.

The sugar conditioning plant, molasses storage tanks and sugar warehouse in Big Bend are situated on land owned by Ubombo Sugar Limited and over which a subsidiary of the Association has been granted servitude of right of use for a period of 100 years which commenced on 20 August 1994. Upon termination of the servitude, Ubombo Sugar Limited has the option to purchase the plant at a price equal to the final cost of the plant, or to lease the plant at a rental to be agreed. The sugar conditioning plant, molasses storage tanks and sugar warehouse at Mhlume are situated on land sub-leased from Mhlume (Swaziland) Sugar Company Limited. The sub-lease expired on 8 September 2008 and is in the process of being renewed. The subsidiary of the Association has the right to renew the sub-lease thereafter for a further period of twenty- five years. The warehouse and bagging plant at Simunye is situated on land to be sub-leased from the Royal Swaziland Sugar Corporation Limited. The sub-lease is still to be registered. Depreciation for the year has been charged as follows:

The investment relates to shares in Sociedade Terminal De Açucar De Maputo Limitada (“STAM”). In the previous years, STAM was making losses, which resulted in the investment being impaired. This condition has changed and profits are now being realised. The quotaholders subsequently decided that a portion of the investment be converted into a loan and be reimbursed to the quotaholders. This portion of the investment is now being disclosed as a long term loan receivable. Refer to note 27 for analysis of the interest in joint venture.

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### 23. Financial instruments

#### Financial risk management

##### Overview

Financial assets of the Group and Association include cash and cash equivalents, loans receivables, forward exchange contract assets and trade and other receivables. Financial liabilities of the Group include bank overdrafts, long term liabilities and trade and other payables. The Group enters into forward foreign exchange contracts and forward sugar pricing contracts in order to hedge its exposure to currency and pricing risks. The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Group and Association's exposure to each of the above risks, the Group and Association's objectives, policies and processes for measuring and managing risk, and the Group and Association's management of capital. Further quantitative disclosures are included through these consolidated financial statements.

Council has overall responsibility for the establishment and oversight of the Group and Association's risk management framework. Council has established an Audit Committee, which is responsible for developing and monitoring the Group and Association's risk management policies. The committee reports on a quarterly basis to Council on its activities.

The Group and Association's risk management policies are established to identify and analyse the risks faced by the Group and Association, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group and Association's activities. The Group and Association, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group and Association's financial risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group and Association. The Audit Committee with the assistance of its internal auditors carries out the role of risk management. Internal Audit undertakes reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

*for the year ended 31 March 2013 (continued)*

### 23. Financial instruments (continued)

#### Financial risk management (continued)

##### Credit risk

Credit risk is the risk of financial loss to the Group and Association if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

##### Trade and other receivables

The Group and Association's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Approximately 39 (2012: 47) percent of the Group and Association's revenue is attributable to sales transactions with 29 (2012: 34) customers, within the South African Customs Union ("SACU") market and 61 (2012: 53) percent of the Group and Association's revenue is attributable from sales transactions with 11 (2012: 7) customers, within the regional and to international markets. However, geographically the credit risk is mainly concentrated within the SACU market.

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group and Association's standard payment and delivery terms and conditions are offered. The Group and Association's credit terms are cash and where credit terms are extended, security is required. Purchase limits are established for each customer, in line with approved credit terms. These limits are reviewed regularly.

The majority of the Group and Association's customers have been transacting with the Group and Association for over five years, and losses have occurred infrequently. The Group and Association require bank guarantees in respect of trade and other receivables.

The Group and Association provide an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

#### Unsecured loans receivable

The Group and Association limit its exposure to credit risk. In the case of the unsecured loans receivable, the Group utilises the warehouse properties associated with such an investment as storage facilities. Management does not expect any counterparty to fail to meet its obligations. The warehouses are integral to the continued operations of the Group. Loans are receivable as follows:

	Group and Association	
	2013	2012
	E	E
Within one year of reporting date	79 607	72 369
More than one year and less than five years from reporting date	213 499	293 106
Five years or more from reporting date	-	-
	<u>293 106</u>	<u>365 475</u>

The interest rates and terms of repayment of loans receivable are disclosed in note 11 to the financial statements.

#### Guarantees

The Group and Association's policy is to provide guarantees for loans extended only to its related entities. At 31 March 2013 E Nil was owing by the subsidiaries (2012: E2 803 903). All amounts owing by subsidiaries are fully guaranteed by the Association.

The Group has acted as a guarantor for the Swaziland Cane Growers Association (SCGA) to Standard Bank Swaziland Limited for an amount of Euro 1 070 937 which action allowed the bank to issue a bank guarantee of an equivalent amount to the European Union (EU) as part of the terms of a grant funding to SCGA.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

#### Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group uses zero based budgeting to establish its costs and periodically prepares management accounts and cash flow projections, which assists it in monitoring cash flow requirements. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations. In addition, the Group maintains the following lines of credit:

- E1 719 million (2012: E1 243 million) overdraft facility that is secured. Interest would be negotiated.
- E Nil million (2012: E6.3 million) in long term loans. Interest is payable at a rate linked to the prime lending rate.

#### Market risk

Market risk is the risk of changes in market prices, foreign exchange rates and interest rates which will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage the exposure within acceptable parameters, while optimising the returns to the industry.

In order to manage market risk, the Group buys and sells derivatives in the ordinary course of business, and as such incurs financial liabilities. All such transactions are carried out within the guidelines set by the Finance Committee and approved by Council. Generally the Group seeks to apply hedge accounting in order to manage volatility in profit or loss.

#### Currency risk

The Group is exposed to currency risk on sales, foreign currency payments and borrowings that are denominated in a currency other than the Swaziland Lilangeni, which is the Group's functional currency. These are primarily the Euro (€) and U.S. Dollars (USD) and to a lesser extent Pounds Sterling (GBP).

The Group and Association is not exposed to the South African Rand, since the Swaziland Lilangeni is linked to the South African Rand on a 1:1 ratio.

The Group hedges all of its trade receivables denominated in foreign currency, by establishing forward exchange contracts against such sales. Where necessary, forward exchange contracts are rolled over at maturity.

#### *Recognised assets and liabilities*

Changes in the fair value of forward exchange contracts that economically hedge monetary assets and liabilities in foreign currencies and for which hedge accounting is applied are recognised directly in equity. When such hedges are realised they are recognised in other comprehensive income. Both the changes in fair value of the forward exchange contracts and the foreign exchange gains and losses relating to monetary items are recognised as part of net financing costs. The fair values of forward exchange contracts used as economic hedges of monetary assets and liabilities in foreign currencies at 31 March 2013 was E3 615 522 (2012: E18 691 397) recognised in fair value derivatives.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

#### Forecasted transactions

The Group classifies its forward exchange contracts hedging forecasted transactions as cash flow hedges and measures them at fair value. The forward exchange contracts and forward exchange currency options at the end of the year were as follows:

	Group		Association	
	2013 EURO	2012 EURO	2013 EURO	2012 EURO
<b>Forward exchange cover</b>				
Standard Bank Swaziland Limited	25 917 742	18 992 600	25 917 742	18 992 600
Nedbank (Swaziland) Limited	39 554 944	7 227 885	39 554 944	7 227 885
First National Bank	127 504	-	127 504	-
	<b>65 600 190</b>	<b>26 220 485</b>	<b>65 600 190</b>	<b>26 220 485</b>

Interest on borrowings is denominated in currencies that match the cash flows generated by the underlying operations of the Group. This provides an economic hedge and no derivatives are entered into.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

The Group's investment in STAM, a joint venture based in Maputo, requires that transactions be paid for in foreign currencies. These are undertaken by buying foreign currencies at spot rates.

#### Interest rate risk

The Group adopts a policy of ensuring its exposure to changes in interest rates on borrowings is on a fixed rate basis, if this is going to be of financial benefit to the Group, otherwise interest rates are maintained as floating rates linked to prime lending rates.

The interest rates and terms of repayment of loans of the Group are disclosed in notes 15 and 17 to the financial statements. Bank overdrafts bear interest at rates linked to the prime overdraft rate as applicable in Swaziland on a floating rate basis.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

#### Capital management

Council's policy is to maintain a sufficient working capital base to maintain investor, creditor and market confidence and to sustain future development of the business. Council seeks to maintain a balance between the higher returns that might be possible with using long term funding as opposed to short term funding for long term projects. Short term funding is used to finance working capital. Council, for the subsidiary companies, seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position. There were no changes in the Group's approach to capital management during the year. Neither the Association nor any of its subsidiaries are subject to externally imposed capital requirements.

The Group's target is to maintain a debt to current assets ratio of 1:1. The debt current ratio for the current year is detailed below.

#### Capital management

	Group		Association	
	2013 E	2012 E	2013 E	2012 E
Total liabilities	<u>1 168 110 070</u>	<u>868 001 234</u>	<u>1 168 663 774</u>	<u>864 892 826</u>

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

The following significant exchange rates applied during the year:

	Group and Association Average rates achieved		Group and Association Closing rates	
	2013	2012	2013	2012
Euro	10.75	10.11	11.84	10.24
USD	8.71	7.24	9.26	7.59

#### Sensitivity analysis

A 10 percent strengthening of the Lilangeni against the Euro and USD at 31 March would have increased export proceeds by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2013 and 2012.

	Group and Association Export proceeds	
	2013 E	2012 E
USD and EURO (2012:USD and EURO)	225 918 000	191 010 000

A 10 percent weakening of the Lilangeni against the Euro and USD at 31 March would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

The Group has no exposure to the rand as at 31 March 2013, as the Lilangeni and Rand are linked.

# THE SWAZILAND SUGAR ASSOCIATION

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 23. Financial instruments (continued)

*Interest rate risk*

#### Profile

At the reporting date the interest rate profile of the Group's interest-bearing financial instruments was:

	Group		Association	
	2013 E	2012 E	2013 E	2012 E
<i>Fixed rate instruments</i>				
Financial liabilities	<u>250 000 000</u>	<u>(250 000 000)</u>	<u>250 000 000</u>	<u>(250 000 000)</u>
<i>Variable rate instruments</i>				
Financial liabilities	<u>(623 279 104)</u>	<u>(349 234 927)</u>	<u>(623 279 104)</u>	<u>(346 431 024)</u>

*Cash flow sensitivity analysis for variable rate instruments*

A change of 100 basis points in interest rates at the reporting date would have increased/(decreased) the amount available for distribution (profit or loss) by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2013 and 2012.

	100 bp increase E	100 bp decrease E	100 bp increase E	100 bp decrease E
<i>31 March 2013</i>				
Variable rate instruments	<u>6 232 791</u>	<u>(6 232 791)</u>	<u>6 232 791</u>	<u>(6 232 791)</u>
Cash flow sensitivity (net)	<u>6 232 791</u>	<u>(6 232 791)</u>	<u>6 232 791</u>	<u>(6 232 791)</u>
<i>31 March 2012</i>				
Variable rate instruments	<u>3 430 051</u>	<u>(3 430 051)</u>	<u>3 430 051</u>	<u>(3 430 051)</u>

### 23. Financial instruments (continued)

#### Basis for determining fair values

The basis for determining fair values is detailed in note 5..

#### *Fair value hierarchy*

The table below analyses financial instruments measured at fair value, by valuation method. The different levels have been defined as follows:

- Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 : inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3 : inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	<b>Level 1 E</b>	<b>Level 2 E</b>	<b>Level 3 E</b>
<b>2013</b>			
Forward exchange contract asset	-	<b>3 615 522</b>	-
	<hr/>	<hr/>	<hr/>
<b>2012</b>			
Forward exchange contract asset	-	<b>18 691 397</b>	-
	<hr/>	<hr/>	<hr/>

## NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 March 2013 (continued)

### 24. Related parties

#### Identification of related parties:

Related parties comprise subsidiary companies, a joint venture, the millers and the growers. The council and other key portfolios are occupied by representatives from the millers and growers.

The main related party transactions relate to sugar and molasses purchases and sales, property leases, provision of technical and related services and related party loans. All related party transactions and interest arising in respect of related party loans were concluded on a market related and arm's length basis.

#### 24.1 Amounts due by related parties

	Group		Association	
	2013 E	2012 E	2013 E	2012 E
Loans receivable	293 337	365 475	293 337	365 475
